# 1. Welcome to the SCRA Website

## Overview

The Servicemembers Civil Relief Act (SCRA) (50 USC App. § 3901 et seq, as amended) – formerly known as the Soldiers' and Sailors' Civil Relief Act of 1940 – provides members on active-duty status with important safeguards in areas of financial management that include rental agreements, security deposits, evictions, installment contracts, credit card interest rates, mortgages, civil judicial proceedings, income tax payments, etc.

The SCRA website enables financial service providers to determine if an individual is/was actively serving on active duty, or received a notice to serve, on a given date so as to determine if they are eligible for the provisions of SCRA.

If you need to determine if an individual is actively serving, received a notice to serve, or was serving 367 days prior to a given date (e.g., loan date, default date, foreclosure date, etc.), you can specify the active-duty status date and the website will provide the information you need.

## How to Use This Document

This document is intended to be used with the Defense Manpower Data Center (DMDC) SCRA website which supports laws and privileges related to active duty servicemembers. It is free to the public.

The website enables you to input identifying information along with a specific active duty status date and determine if the individual:

- Is on active duty on the date in question.
- Has left active duty within 367 days of the date in question.
- Has been notified of call-up to active duty before the date in question.

### In this guide, you will learn how to:

- Create and manage an account (create an account, reset a forgotten password, a disabled account, etc.) with which you can retrieve information on multiple individuals at once (known as a multiple record request, or batch request).
- Log in (for single and multiple record requests)
- Retrieve information on one individual, in real-time (single record request).
- Obtain an individual's SCRA certificate.
- Format/upload request files for multiple record request(s).
- Download result file(s).
- Download certificates for multiple record request(s).
- Troubleshoot errors received while navigating through the site.

## DoD Support

The Department of Defense (DoD) strongly supports the enforcement of the Servicemembers Civil Relief Act. Information provided is in support of Title 10 and a part of Title 14 for Army, Navy, Marine Corps, Air

Force, NOAA, Public Health and Coast Guard. The data is extracted from DMDC's Defense Eligibility and Enrollment Reporting System (DEERS) database, which is the official source of data regarding eligibility for uniformed services medical care and other benefits and entitlements.

DMDC has issued thousands of *does not possess any information indicating that the individual is currently on active duty* responses and has experienced a very small error rate. Nevertheless, if you receive the above response and a family member, friend, or representative asserts that the individual is or was on active duty status for the active duty status date, or is otherwise entitled to the protections of the SCRA, you are strongly encouraged to obtain further verification of the person's status by contacting the associated service.

## Disabled Accounts

Since the website is public and accessible to anyone at any time, additional security measures are in place to ensure that that you are allowed to track and recover only the file(s) you uploaded. Below are reasons your account might be disabled:

- **Terminated**  
If you have not logged into the system within the last 35 days, the system will automatically terminate your account and you will no longer have access to the file(s) you uploaded using that account.
- **Closed**  
If you opt to close an account, that account cannot be re-opened.
- **Locked**  
If you have too many incorrect login attempts, your account will be locked and you will be required to answer the Challenge Questions to move forward.
- **Incorrect Challenge Question Answers**  
If you cannot answer the challenge questions after three attempts during an incorrect login attempt or "Forgot Your Password" process, your account will be terminated and all the information associated with your account will no longer be accessible.

To request single or multiple records again, you must create a new account. Any requests, regardless of status, made from a previous account will need to be re-requested after your new account is created.

## Session Timeout

SCRA will automatically log you out of a session after a set period of inactivity. Once you have logged in, if there is no activity for 10 minutes or more, the session will be terminated. A warning banner will display with a countdown, letting you know when the session will be terminated. You may choose to continue with the session, logout of the session, or let the timer run out and be automatically logged out of the session.

NOTE: Set period of inactivity and warning timer lengths may be subject to change.

### Session Timeout Options:

- Click **Continue** before the timer expires in order to continue with the session.
  - The banner will be removed and user may continue as normal.
- Click **Logout** before the timer expires.
  - The system will log the user out.
  - You will be returned to the Login page.
- Remain inactive and allow timer to expire.
  - The system will log the user out.

## 3. Request a Single Record

You can request a certificate verifying the active duty status for an individual on a specified date.

### To perform a Single Record Request:

1. Select **Single Record Request** from the navigation bar on the home page.

NOTE: If this is your first time accessing the website and you receive a security certificate error message, refer to the FAQs on the website.

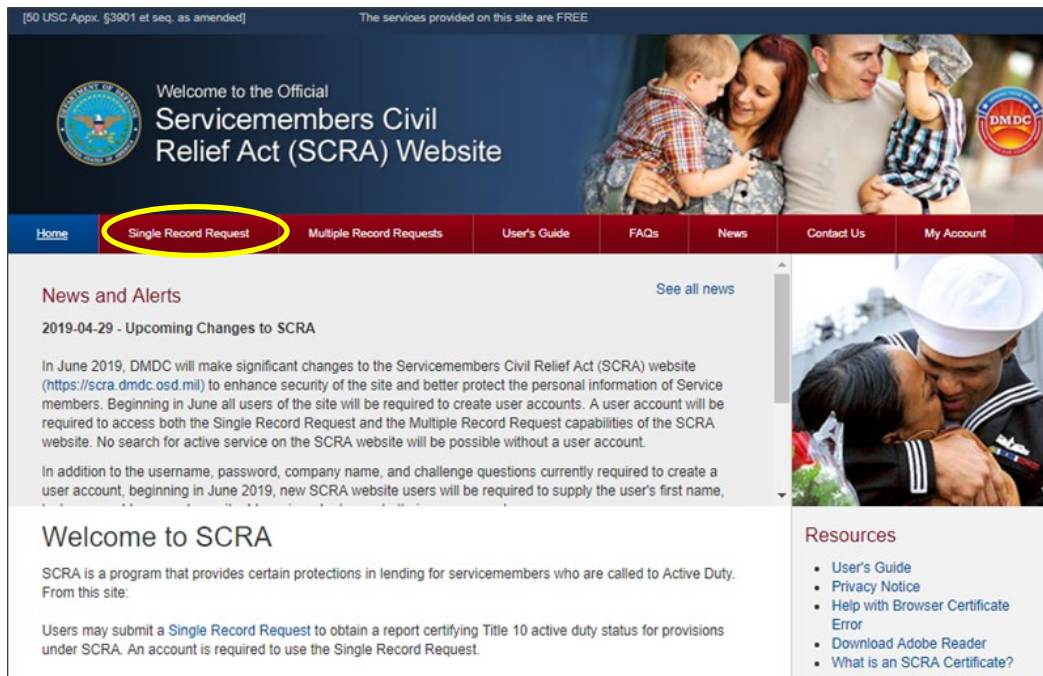

Figure 20. Select Single Request/Home

2. Click **Single Record Request**.
3. Log into your account.

NOTE: For instructions on how to log into an account go to 'log in'.

If this is your first time requesting single or multiple records, you must create a new account.

If you've forgotten your password, refer to 'Forgot Your Password' for instructions on how to reset your password.

4. Once the SCRA Single Record Request screen appears, complete the required fields. If the individual's SSN is unavailable, you can also obtain information by providing a last name and date of birth.

NOTE: To confirm the accuracy of the information provided, please repeat the SSN (if available) in the corresponding duplicate field.

NOTE: SSN is NOT required. Unless you are a financial institution or otherwise required to collect SSNs, you should not require individuals to provide you with their SSN for the purpose of conducting a query on this website. Searches can be conducted using Name and Date of Birth alone. Providing additional details such as First Name, Middle Name, or SSN, if already known, will increase the accuracy of the match.

**IMPORTANT:** If the active duty status date is not entered, the search will be based on the default active duty status date (today's date).

On the right side, there is a 'Steps to Make a Request' section with a list of steps: Check request file format, Click Choose Files, Answer certificate question(s), Accept Terms of Use Agreement, Click Upload, and Verify that the files uploaded successfully. Below this is a 'Tips & Notes' section with two tips: 'You get better results using the SSN.' and 'Allow up to 24 hours for results to be ready for download.' The 'Resources' section lists links for User Guide, Privacy Notice, Example Request File, Annotated Request File, and Annotated Result File. ## File Status

- The SCRA Multiple Record Request – Upload File(s) tab will display the file id, file name, upload status, upload date, size, and certificate required.
- The Download Request(s) tab will display file id, upload filename, upload date, results file status, and certificate file status for each file that has been uploaded.
- The upload date displays the date and time the file was uploaded.
- 15 days after the upload date, the file expires and is no longer available for download.
- 30 days after the download date, the historical record of this file is no longer visible.

NOTE: If you are returning to the website after an extended period of time (i.e., the minimum 24-hour processing time) you must log In before you can check the status of a file.

## File Names of Multiple Record Requests

- Allowed:
  - Upper and lower letters: a-z
  - Numbers 0-9
  - The underscore character ( \_ )
- Not Allowed:
  - Spaces
  - Additional periods before the extension

- Any special symbols or characters not mentioned above
- File names must include the extension .txt
- Maximum length of name (without file extension) is 30 characters.

## Format of the Request File

A request file contains information on multiple (up to 250,000) individuals and can be used to retrieve all associated status information at one time. The file must be formatted correctly to allow the DMDC database to read and process the information in it (see Request File Example for a visual reference).

### Criteria for Matching an Individual

While every field must be accounted for, the three fields that are most important for validating a match are:

- Social security number (SSN)
- Last name
- Active duty status date

NOTE: Entries that are not valid will be represented in the result file with an Error code.

### File Information/Limitations

The request file must be provided as follows:

- Format must be 'fixed width' (See Request File Layout/Format table for positions/lengths).
- Can contain numbers (0-9), letters (A-Z or a-z), and spaces ( ). The use of any other characters not previously listed will result in an Error Uploading File message.

NOTE: Name fields (last, first, and middle) are exceptions as they cannot contain numbers (0-9) but can include dashes (-) and apostrophes (').

NOTE: The customer record ID can also include dashes (-) and apostrophes (').

- Must be saved as a .txt (text only) file type.
- Must be UTF-8 encoded flat text.
- Cannot contain more than 250,000 records. The maximum number of records in a file will be enforced; this number is displayed on the SCRA Batch Request Upload File screen and may change for performance reasons.

## Multiple Record Requests

Use this page to:

- Request the status of multiple individuals and/or of a single individual for multiple dates.
- Download the results of a status inquiry.

**\*SSN is NOT required. Unless you are a financial institution or otherwise required to collect SSNs, you should not require individuals to provide you with their SSN for the sole purpose of conducting a query on this website. Searches can be conducted using Name and Date of Birth alone. Providing additional details such as First Name, Middle Name, or SSN, if already known, will increase the accuracy of the match.**

### Field Name Descriptions

For every individual in the request file, their personal information and the active duty status date is returned for reference. Match results are added to the end of each record.

- **SSN.** The social security number of the person of interest as provided in the request file.
- **Date of Birth.** The date of birth must be numeric in the following format:
  - YYYYMMDD.
  - No spaces, dashes, or slashes in the date of birth.
  - If a date of birth is not used you may substitute 8 blank spaces.
  - No dates before 19000101 and no future dates are allowed
- **Last Name.** The last name of the person of interest as provided in the request file.

- **First Name.** The first name of the person of interest as provided in the request file.
- **Customer Record ID.** This is an optional field, and is the same value as provided in the request file, if any.
- **Active Duty Status Date.** This is the active duty status as of the date provided in the request file.
- **On Active Duty on the Active Duty Status Date.** This indicates if the person was on active duty on the active duty status date. The values returned describe the following (See Active Duty Definition below for further information on what qualifies as active duty):
  - **Y:** Yes, on active duty on the active duty status date and that period of active duty has ended.
  - **X:** Yes, on active duty on the active duty status date and is still on active duty.
  - **N:** No, not on active duty on the active duty status date (see Left Active Duty <=367 Days from the Active Duty Status Date for additional information in this file).
  - **Z:** There was an issue with the data input. (See Error section for further information).

#### Active Duty Definition:

Active duty status, as reported in this file, is defined in accordance with 10 USC § 101(d) (1). Prior to 2007, DMDC only received information on active duty periods of more than 30 consecutive days. In the case of a member of the National Guard, active duty includes service under a call to active service authorized by the President or the Secretary of Defense under 32 USC § 502(f) for purposes of responding to a national emergency declared by the President and supported by Federal funds. All Active Guard Reserve (AGR) members must be assigned against an authorized mobilization position in the unit they support. This includes Navy Training and Administration of the Reserves (TARs), Marine Corps Active Reserve (ARs), and Coast Guard Reserve Program Administrator (RPAs).

Active duty status also applies to a uniformed servicemember who is an active duty commissioned officer of the U.S. Public Health Service or the National Oceanic and Atmospheric Administration (NOAA Commissioned Corps).

Coverage under the SCRA is broader in some cases and includes some categories of persons on active duty for purposes of the SCRA who would not be reported as on Active Duty in this file.

Many times orders are amended to extend the period of active duty, which would extend SCRA protections. Persons seeking to rely on the data in this file should check to make sure the orders on which SCRA protections are based have not been amended to extend the inclusive dates of service. Furthermore, some protections of the SCRA may extend to persons who have received orders to report for active duty or to be inducted, but who have not actually begun active duty or actually reported for induction.

**IMPORTANT.** The last date on active duty entry is important because a number of protections of the SCRA extend beyond the last dates of active duty.

- **Left active duty <=367 days from the active duty status date**  
This indicates if the person left active duty within 367 days prior to the active duty status date, and is only applicable if the On Active Duty on Active Duty Status Date field is 'N'.
  - **Y:** Yes. This person left active duty within 367 days prior to the active duty status date.
  - **N:** No. This person did not leave active duty within 367 days prior to the active duty status date.
  - **Z:** Not applicable or error. There was an issue with the data input.
- **Notified of a Future Call-Up to Active Duty on the Active Duty Status Date**  
This indicates the active duty status date is within the uniformed servicemember's notification period to report for active duty. The values returned describe the following:
  - **Y:** Yes. Active duty status date falls within the future call-up to active duty period.

- **N:** No. Active duty status date does not fall within the future call-up to active duty period.
- **Z:** Not applicable or error. There was an issue with the data input.

■ **Active Duty End Date**

The active duty end date will be populated if the servicemember left active duty under two conditions:

- The individual was on active duty on the active duty status date, and that active duty period has subsequently ended.
- The individual was not on active duty on the active duty status date, but left active duty within 367 days prior to the active duty status date.

NOTE: If there is no active duty end date, it will be returned as '00000000'. When the individual was on active duty on the active duty status date and that period of active duty has ended, the active duty end date (positions 104-111) will be populated as formatted in the Result File Layout/Format table above.

■ **Match Result Code**

This field is no longer in use. All result files will return a '0' value in the 112th position of each record, regardless of match parameters.

For active duty status determination, refer to the results in the following fields:

- Active Duty on the Active Duty Status Date.
- Left active duty <=367 days from the active duty status date.
- Notified of a Future Call-Up to Active Duty on the Active Duty Status Date.
- Active Duty End Date.

■ **Error**

This field is used to indicate possible errors. The values are as follows:

- **1: Missing required field**  
A required field is missing. See 'Criteria for Matching an Individual' for further information.
- **2: Invalid SSN**  
SSN is invalid. It must be 9 digits and alphanumeric. There cannot be dashes or spaces. Letters (e.g., alpha characters) are invalid. Leading zeros are required.
- **3: Invalid date**  
The date must have the following format: YYYYMMDD.
  - The active duty status date must be on or after 19850930 and none of the dates can be in the future.
  - There cannot be dashes (-), slashes (\ /), periods (.), or spaces.
- **4: Multiple Records**  
DMDC cannot definitively identify the individual because multiple records were found based on the information you provided. More information may be required to confirm the correct record.
- **9: No Errors**  
No errors were found.
- **B: Invalid date of birth**  
The date of birth must have the following format: YYYYMMDD.
- **D: Invalid first name**  
The first name is an optional field for the customer's use. This error may occur if the first name does not appear in the file in the correct location.
- **E: Invalid customer ID**  
The customer ID is an optional field for the customer's use. It could be a loan ID or any other

identifier the customer would like to link with the record. This error may occur if the first name does not appear in the file in the correct location.

- **G: Invalid middle name**

The middle name is an optional field for the customer's use. This error may occur if the middle name does not appear in the file in the correct location.

■ **Date of Match**

This field is used to record the date that DMDC completed the SCRA match. It is effectively the “as of” date of the match. The current active duty status of servicemembers can and does change daily, so it's important to record when the SCRA match was completed.

■ **Active Duty Begin Date**

The date the servicemember entered active duty.

■ **EID Begin Date**

The start date of the order notification.

■ **EID End Date**

The end date of the order notification.

## Download Certificates

Once a certificate file has been successfully completed, a certificate file will be available to download to your computer.

NOTE: The certificate file contains the SCRA version number in the prefix of the filename, e.g., scra3\_0\_myfilename.txt. When upgrades to SCRA occur, this allows you to identify the version of SCRA that processed the file.

NOTE: If you have closed your browser, you must log In again to obtain Certificate file(s).

**To download a certificate file:**

1. Once logged in, the SCRA Multiple Record Request – Download Request(s) screen provides a list of files available for downloading.

The screenshot shows the 'Multiple Record Requests' page on the SCRA website. The page has a header with the SCRA logo and a navigation bar with links: Home, Single Record Request, Multiple Record Requests (active), User Guide, FAQs, News, Contact Us, Manage, and Logout. The main content area is titled 'Multiple Record Requests' and includes instructions on how to use the page. It features a 'File Status' table with columns for File ID, Upload Filename, Date Uploaded, Result File Status, and Certificate File Status. The table shows one entry with File ID 'A2660' and Upload Filename 'SCRA\_ExampleRequestFile.txt'. Below the table are pagination controls (First, Previous, 1, Next, Last) and a 'Go To Page' field. To the right of the table are sections for 'Steps to Retrieve Results', 'Tips & Notes', 'Resources', and a 'Legend' explaining the status icons.

**Multiple Record Requests**

Use this page to:

- Request the status of multiple individuals and/or of a single individual for multiple dates.
- Download the results of a status inquiry.

\*SSN is NOT required. Unless you are a financial institution or otherwise required to collect SSNs, you should not require individuals to provide you with their SSN for the sole purpose of conducting a query on this website. Searches can be conducted using Name and Date of Birth alone. Providing additional details such as First Name, Middle Name, or SSN, if already known, will increase the accuracy of the match.

## View/Print Certificates for Multiple Record Request

Certificates are provided as a result of a multiple record request inquiry, if they are requested. Depending on the number of records returned from the search, one of the following certificates will be provided for each individual:

- Status Report (single match found)
- Status Report (multiple matches found)

**NOTE:** These certificates are the same format as the single record request inquiry, see the sections linked above for samples of those certificates.

If you select the option for receiving only all positive matches OR only all negative matches, and there are no matches in your file, you will receive a Status Report (No Matches Found) certificate. The Status Report (No Matches Found) is provided for informational purposes only and will not include any names or active duty status dates that were provided in the file (see example below).
